SUMMARY

Secure a responsible career opportunity to fully utilize my learning, training, and skills, while making a significant contribution to the organization's success. Seeking a position with an opportunity for professional challenges and the chance to grow within a dynamic and stable workplace.

PROJECTS

NewsMonkey - Latest News Application

Technology :- Javascript, React js, HTML, CSS, BootStrap.
- Developed a dynamic web application to deliver the latest news across various categories.
- Implemented state management with Redux to efficiently handle application state and ensure seamless user interactions.
- Integrated RESTful APIs to fetch and display real-time news updates, providing users with the most current information.
- Added features like pagination to easily navigate news articles and a loading indicator to improve user engagement.

Online Doctor Appointment

Technology :- Springboot,Rest API, React js, BootStrap, Oracle Sql.
- Developed a full-stack application to streamline the process of booking doctor appointments online.Which Contains Patient, Doctor, and Admin Pages, Appointment Scheduling.
- Patients can review the doctor's weekly schedule, enabling them to select a suitable day and time for their appointment.
- Doctors can view all their appointments and the appointment request of the patients for their availability.
- Ensured smooth data handling and synchronization with the backend using RESTful APIs.

Smart Exam Management System

Technology :- Java, Springboot, HTML, CSS, BootStrap.
- Secure login for administrators, teachers, and students with role-based access control.
- Teachers can create exams with various question types, including multiple-choice, true/false, short answer, and essay questions.
- Provide immediate results and feedback to students, enhancing their learning experience.

Java-based to-do list & notes application

Technology :- Java, HTML, CSS, BootStrap, Hibernate.
- Implemented CRUD (Create, Read, Update, Delete) operations to manage tasks and notes efficiently.
- Utilized Apache Tomcat to set up a database for storing notes, ensuring data persistence and reliability.
- Designed a responsive user interface using CSS, providing a seamless experience across various devices.
